(F) minus all Outcomes (R+V). -----> 96 11 107

If your reported Ending Count does not match these numbers, please go back through your data and be sure you didn't miss something (i.e., animals in foster, adoptions, transfers, etc.). If all animals have been accounted for and the reported Ending Count is different, please indicate in the comment section.

COMMENTS: Animal Control began using a shelter management software program on May 15, 2007. Data for the first 4.5 months of 2007 were calculated by taking an average monthly figure based on the 7.5 months of data and then multiplying these figures by 12 for an approximated yearly total in each category. Prior to May 15, 2007 data was collected, recorded and calculated manually and not all categories above were represented.

Some small data errors might have occurred as part of this process and in rounding to the nearest whole numbers.
