I hereby request a permit for temporary power for the above project address. This request is being made for completion of construction and/or testing of individual electrical circuits. At this point, my project is approximately 30 – 60 days from a final inspection. I understand that a Certificate of Occupancy has **NOT** been issued and the structure will not be occupied until such time as a CO is issued. I will not allow any unauthorized person to violate this agreement or to use the power in a hazardous or unauthorized manner. This serves as my notice that, immediately following the 60-day period, the utility will be instructed to discontinue the service unless a CO has been issued. The 60-day period begins the day of your passed temporary inspection. By applying for this temporary power permit, I hereby assume all responsibility and liability for use of electricity within the building during this period.
