Overcoming the Stigma: Don’t Neglect Your Mental Health

If you had a broken leg you wouldn’t attempt to fix it yourself, right? So why do we try to ‘tough it out’ or ‘suck it up’ when our mental health needs some tender loving care? Often there’s stigma or shame attached to saying we need some help. So how do we break that cycle and get the care we deserve? By coming together and talking about it. No shame. No judgment. Just compassion and facts.

Let’s stop being dancing around the issues. Join us for some heartfelt, real talk about healing ourselves, our families, and our community. Join us for a summer series of discussions about mental wellness. Find out how caring for your mental health goes hand in hand with your faith to create a stronger, more vibrant, and peaceful you.

This free summer series on mental wellness starts on Thursday, June 13th from 6pm-7:30pm at New Bethel AME Zion Church, 263 Forest Street, Forest City.

Thursday, June 13th 6pm-7:30pm
Mental Wellness and Breaking Down Stigma
